For me to visit you and photograph your animal(s) please add £20.
You will receive a disc of all my images with your painting.

COMMISSIONING A PAINTING

My paintings are created from clear photographs. It is always fantastic to photograph your animals myself if possible and get to know them, but you are welcome to provide your own photographs if you wish.

The above sizes are in inches to the outer edge of the mount and cover the standard sizes I paint to although I am happy to paint to other sizes if desired. Prices include frame and double mount.

When painting double or group portraits I can work from separate photographs to create the required composition. Simple shaded backgrounds are included in the price, there is an additional charge for specific or detailed backgrounds.

Further details are available on my website or please feel free to contact me in person. Should you commission a painting I will do my utmost to capture the essence of your animal for you.
